Please provide as much information as possible. If you can't put something into words, attach a page of drawings (chicken scratch and stick figures are welcome).

For clarity and detail purposes digital photos are not recommended, we request original photos be mailed directly to us.

Photos are the number one key of reference when putting final features on each sculpture. Make sure the photos are clear and if there is more than one person in the photo clearly mark the correct person(s) you would like a CLAYme of. Photos required by HOSS STUDIO of both the bride and groom: front view (head to toe), close-up side views of faces, close-up front view of faces and a back view if you have one. Please feel free to send more photos if you think they will help capture the persons personality and remember to mark your photos on the back with your name and we will do our best to return them to you when the project is complete.

To help plan a CLAYme consider the wedding attire (send photos of the wedding dress and tux, bride and groom do not need to be wearing them), wedding destination, occupations, favorite activities, hopes and dreams.

*Remember we do not know the bride and groom, your information tells us about them, and the more precise the information the better.

How would you like your figures to be posed, do you have a special scenario in mind? _____
